## MARINE

### The Ultimate Workhorse of the Seas **Procraft Cargo 50**

Built for power, durability and uncompromising practicality, the **Procraft Cargo 50** is a heavy-duty multi-purpose vessel designed to handle the toughest maritime tasks. Whether you are transporting heavy machinery, performing demanding crane operations or engaging in towing duties, this vessel is engineered to deliver reliable performance in Category B conditions.

---

#### Core Capabilities

- **Massive Deck Logistics:** The expansive flat deck is designed for heavy loads. With a **20-ton cargo capacity**, the vessel can easily accommodate large equipment or even a full-sized truck, which can be driven directly onto the deck.
- **Seamless Loading:** Equipped with a robust **bow ramp**, the Procraft Cargo 50 allows for efficient roll-on/roll-off (Ro-Ro) operations from beaches or low docks.
- **Integrated Heavy Lifting:** A high-capacity **20-ton crane** is mounted on deck, making the vessel self-sufficient for loading, unloading and maritime construction support.
- **Versatile Towing:** Features a professional-grade **swivel towing hook/towing point** located in the aft, providing excellent control and stability during towing operations.

Comfort & Endurance

Despite its rugged exterior, the Procraft Cargo 50 ensures the crew stays productive and comfortable during long shifts or multi-day voyages:

- **Accommodations:** Below-deck sleeping quarters for **two crew members**.
- **Amenities:** Fully equipped onboard **toilet (WC)**.
- **Climate Control:** Integrated **central heating** system to ensure operational readiness in cold climates.

Key Specifications

| Feature              | Specification                |
|----------------------|------------------------------|
| Model                | Procraft Cargo 50            |
| Length Overall (LOA) | 15.0 meters                  |
| Beam                 | 5.5 meters                   |
| Deck Cargo Capacity  | 20 tons                      |
| Design Category      | B (Offshore)                 |
| Power                | 2 x 129–450 kW engines       |
| Starting Price       | €780,000 (Ex-works shipyard) |
| Draft                | 1.2 meters                   |
| Fuel tank            | 2 x 3000 liters              |

Built to Last

The Procraft Cargo 50 is a high-performance utility vessel engineered for demanding maritime operations, logistics and technical offshore support.
